

# The Missouri Academy of Child Trauma Studies Invites you to attend a training in: **TRAUMA FOCUSED COGNITIVE BEHAVIORAL THERAPY**

**Trauma-Focused Cognitive Behavioral Therapy** is an evidence-based, trauma focused treatment for children and teens between the ages of 3 and 17. TF-CBT is a skills-based treatment model that decreases PTSD and depressive symptoms in children and teens and improves the relationship between children and their caregivers. This is a year-long training, offered by TF-CBT national trainers Kate Drewry, LCSW, and Matt Kliethermes, Ph. D. through the Missouri Academy of Child Trauma Studies.

## Training Details:

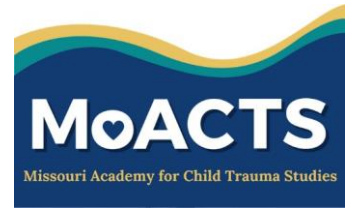

Interactive training delivered via zoom on  
**May 12<sup>th</sup>, 13<sup>th</sup>, 16<sup>th</sup>, & 17<sup>th</sup>, 2022**  
9am-12pm Central (10am-1pm Eastern / 7am-10am Pacific)

12 monthly consultation group meetings

Contact Hour Certificates will be provided

Training fee:  
**\$600 per person**

*This training will not be recorded. To become eligible for TF-CBT rostering, all four days of training must be attended live.*

## Training Participants:

- Must have a Master's degree or higher in a mental health field and be licensed or license eligible.
- Complete TF-CBT Web (<https://tfcbt2.musc.edu/>) and provide a certificate at the first day of training. TF-CBT web is a separate fee of \$35 to be paid on MUSC's website.
- Will be expected to complete 3 TF-CBT cases over the course of the year.
- Will be eligible for state-level rostering via MoACTS and for national certification in TF-CBT following completion of training requirements.
- It is recommended that participants read *Treating Trauma and Traumatic Grief in Children and Adolescents, 2nd Ed.*
