

TF-CBT Training

Trauma-Focused Cognitive Behavioral Therapy (TF-CBT) is an evidence-based psychotherapy approach designed to treat posttraumatic stress and related emotional and behavioral difficulties in children and adolescents. Through this training package therapists gain a comprehensive understanding of TF-CBT and its application in therapy through five days of training and 12 consultations. This training package exceeds the required trainings and consultations for national TF-CBT certification. For more information on TF-CBT certification, visit tfcbt.org.

Currently offered entirely online!

Trainer:

Dr. David Hong, PsyD, LP

Dr. Hong is a nationally certified trainer and practitioner of TF-CBT. He earned a doctoral degree from the Minnesota School of Professional Psychology. Dr. Hong specializes in services for children, adolescents and immigrant populations with a focus on trauma. In his 10+ years, he has trained domestically and internationally, most recently conducting the first-ever TF-CBT training in the Philippines.

"Best training I've had in twenty years!"

"Dr. Hong kept my attention the entire time and made me excited about what we're doing." - Satisfied TF-CBT trainees
