Event Description

Time: Aug 29 - Sep29, 2022

Hosted by: IPCF, China

Open to: Chinese-speaking participants

Trainer: Dr. Monica Fitzgerald

This virtual training is available for all Chinese-speaking participants with Chinese-English consecutive interpreting service. For sign-up or more information, please scan the following QR code with WeChat or follow IPCF (儿童与家庭整合式心理中心) on WeChat.

Virtual Training :

This virtual training will provide mental health and related professionals with a comprehensive understanding of TF-CBT as well as hands-on opportunities to practice the TF-CBT components. In addition, significant training time is devoted to formal and informal trauma assessment techniques, including information about how to screen for trauma exposure and measure trauma symptoms,

using standardized screening instruments. Participants will be provided with free assessment tools and learn how to provide feedback on the standardized assessment measures. The assessment training also includes background on the prevalence of trauma exposure and trauma-related symptoms in children and adolescents.

Consultation calls:

At the end of the online training, participants will be asked to sign up for a consultation call group. Generally, therapists participate in one consultation call per month for a period of 12 months. Occasionally, groups can request two consultation calls per month for 6 months. Please refer to the Chinese introduction for more details.

About the Trainer:

Dr. Monica Fitzgerald

Dr. Fitzgerald is a Senior Research Associate and licensed clinical psychologist at the Institute of Behavioral Science at the University of Colorado, Boulder. Dr. Fitzgerald is a certified, expert trainer in AF-CBT and TF-CBT. She regularly conducts trainings and provides consultation for these models nationally and internationally.
